Bandar Lampung, Lampung, Indonesia

IT SPECIALIST

As a recent graduate from the Sumatera Institute of Technology with a Bachelor's degree in Informatics Engineering, I have honed my skills in Data Security and Networking. My educational journey has been geared towards understanding and mastering the intricacies of system security and network management. My ability to collaborate effectively in tech-driven environments, combined with my proficiency in English, makes me well-suited for roles that require a global perspective. I am keen to apply my expertise in a dynamic and innovative setting, contributing significantly to the field of Informatics Engineering.

STRENGTH AND EXPERTISE

System and Data Security	IT Management	Tech-Oriented Problem Solving
IT Support	Operating Systems	Project Management
Computer Networking	Troubleshooting	Collaborative Teamwork

EDUCATION

Sumatera Institute of Technology   **August 2019 - September 2023**
Informatics Engineering

- Focused on Cyber Security & Pervasive Computing
- GPA 3.62/4.00
